

BARYSHNIKOV ARTS CENTER THEATRICAL LIGHTING INFORMATION AND EQUIPMENT INVENTORY

POWER, DIMMING & POWER DISTRIBUTION:

The Howard Gilman Performance Space (=HGPS) on the 4th floor is outfitted with a 200 Amp, 3-phase service for Theatrical Lighting.
Three ETC Sensor SP2420B dimmer packs (24 x 2.4k) are dedicated to the Howard Gilman Performance Space.
Four dimmer cards in Rack 2 have been replaced with constant current modules. These supply the four Martin Mac 700 fixtures.
68 x 2.4k dimmers are available for conventional theatrical lighting instruments.
78 circuits are permanently distributed over the grid of the Howard Gilman Performance Space. **A basic Repertory Light Plot is in place.**

Studio 6A on the 6th floor is outfitted with a 200 Amp, 3-phase service for Theatrical Lighting.
One ETC Sensor SP2420B dimmer pack (24 x 2.4k) is dedicated to Studio 6A.
36 circuits are permanently distributed over the grid.
No theatrical lighting instruments are permanently installed in Studio 6A.
